Visa Credit Card

A Visa Credit Card is a type of payment card that allows the cardholder to make purchases on credit, up to a predetermined credit limit set by the card issuer. Cardholders then need to repay the borrowed amount along with any accrued interest and fees within a specified billing cycle.

Eligibility

Bhutanese citizens above 18 years maintaining Savings or Current Deposit Accounts with T Bank and having a legitimate repayment source are eligible to avail the Visa Credit Card facility. This card can be availed by account holders having mode of operation as Individual, Either or Survivor (E or S), or Sole Proprietorship.
